

## The High Performance Cool Roof Coating

### **EPOX-Z NRG™ requires only ONE COAT**

#### **Unique Polymer Chemistry**

- 100% solids solventless technology
- Zero VOCs
- Withstands water ponding
- Resists chalking

#### **Short-term and Long-term Cost Savings**

- Low installed cost
- Extends roof life
- Lowers building energy costs

#### **Exceeds Cool Roof Guidelines**

- Reflects both visible and infrared light
- High SRI
- Low Slope and Steep Slope performance

*Use EPOX-Z NRG on Metal, Bitumen, or Rubber Roofs—  
Compare EPOX-Z NRG to any Elastomeric Cool Roof  
Coating*

#### **Only EPOX-Z NRG™ posts these superior ratings**

Please see fact sheet for technical details.

ASTM D 714	Degree of Blistering
ASTM D 1653	Permeability
ASTM D 1654	Corrosion Resistance
ASTM D 3359	Adhesion to Materials
ASTM D 4214	Resistance to Chalking
ASTM D 5894	Cyclic /UV Exposure
